

ESLI SOETENS

My main ambition is to minimize the negative effects of technological development on society. My ability for analytical thinking, combined with a passion for technology, allows me to look at innovation with a future perspective on risks as well as opportunities. I believe it is crucial that we balance the power of innovation with a basic compassion for people.

EDUCATION

2019 - 2021 **International Social Welfare and Health Policy (MSc.)**
OsloMet - Oslo Metropolitan University (Oslo, NO)

- Main courses: Comparative social welfare theory and concepts, Comparative social risk management, International health policy, Globalisation & social and health policy
- Final thesis: Artificial Intelligence, automation and labour market insecurity

2014 - 2018 **Physiotherapy - English Stream (BSc.)**
Fontys University of Applied Sciences (Eindhoven, NL)

- Specialisation programme: Technology and Health Care Innovation
- Internships in neurology, cardiology, postoperative rehabilitation and osteoarthritis

- Minor: Marketing and Mobile application development at University of Worcester (UK)

2013 - 2014 **Applied psychology (BSc. propaedeutic phase)**
Fontys University of Applied Sciences (Eindhoven, NL)

EXPERIENCE

2018 - present **Wecycle (NO)**
IT-manager

Wecycle is a non-profit environmental start-up in Oslo, aiming to reduce and recycle plastic waste locally. At Wecycle I am in charge of everything IT related.

2013 - present **JOOP (NL, NO)**
Co-founder and programmer

JOOP is a small business venture providing IT services for small companies and private individuals. The main focus is on web development (design and hosting). I am proficient in the web-based programming languages such as HTML, CSS, JavaScript and PHP.

2016 - 2018 **Fontys University of Applied Sciences (NL)**
Student member of the Participation Council

As an elected member of the university's participation council, my tasks included consulting with the executive board about matters such as the university's strategic plan, policy, regulations and budgets.
